## In the spotlight

### New Catalogues 2013

As we enter into the New Year we can take a step back and reflect upon what we have achieved during 2012. Amongst all of the projects we completed last year there is one that we are particularly proud of.

In 2012 we have for the first time simultaneously designed and launched all of our aftermarket catalogues. The fully updated and re-designed 2013 catalogues are now available for each of our aftermarket filter brands: Fram, CoopersFiaam, Purflux, and the newly launched Sogefi Pro for heavy duty applications.

The new catalogues all feature improvements to their format and contents. One key change is the harmonised visual style of the cover design. Each one is now instantly recognisable as a Sogefi publication, not only due to its distinctive aftermarket filter brand colour but also by the special Sogefi Group black corporate strap line, incorporating the Sogefi Group logo.

The content of each of the catalogues has been re-organised to make it easier and more convenient to use. New features include an improved layout for the 'Applications by Vehicle Make' section, with data now printed in columns for faster referencing. Every new filter introduction is also clearly identified and listed by both vehicle manufacturer and filter type.

In addition to this, there are a significant number of new references and applications listed in each of the catalogues. For instance, your CoopersFiaam 2013 catalogue offers more than 150 additional replacement filter references. These additions cover the most up to date vehicles including the Alfa Romeo Mito, Audi A1, Nissan Juke, Peugeot 208, Range Rover Evoque, Renault Latitude and Volkswagen Amarok.

Including the latest new part references, the CoopersFiaam 2013 catalogue now covers more than 1,100 vehicles, including all the major Asian, American and European makes. The parc coverage of the CoopersFiaam brand across Europe represents the best in class with an average of: 96% for air filters, 99% for oil filters, 98% for diesel filters, 90% for petrol filters and 96% for cabin air filters.

With the best ever CoopersFiaam range now available, we have more reason than ever to wish you a prosperous 2013, full of success.

## Catalogue Erratum

Page 199 :

Only FA6076ECO is suitable for Diesel Engine (M271.820). Do not consider FA5728ECO

## Sogefi awarded for the quality of its catalogues

In an increasingly competitive market, product communication has become the touchstone of a good aftermarket offer.

By product communication, we are talking about all of the tools which allow our customers to identify quickly and correctly the required part numbers for all applications.

Why? As it enables us to work more efficiently and makes all of our jobs easier.. Firstly, it increases the number of potential vehicles that can be equipped by reducing range gaps and secondly, it increases customer satisfaction by reducing errors and catalogue searches.

From the recently renewed paper catalogues (where you can see the enhancements we have developed) to the updated electronic catalogues, we have focused all of our efforts on improving our product identification and vehicle mapping systems to the highest of standards.

As evidence, Sogefi has just been reconfirmed as having the highest possible level of data certification by Tecdoc. This "A" grade has been scored to all of our Light vehicle brands and to our new Sogefi Pro Range for Truck and Buses which makes us even prouder.

The Tecdoc assessment takes into consideration various parameters including data compliance, translations, etc. and has given Sogefi a score that far exceeds the industry average.

Of course, we are very proud of this recognition but we see this more as a positive sign to carry on and intensify our efforts, as we know there is still a lot to be done.

## Sogefi welcomes you for the 21st session of EQUIP AUTO in Paris? from Wednesday 16th to Sunday 20th October 2013.

Every 2 years the Equip Auto show is taking place in near Paris. This exhibition puts together 1800 manufacturers, distributors and repairers from the light and commercial vehicles market around the world on 120,000 sqm.

For this 21<sup>st</sup> edition, Sogefi will be present with a bigger and more modern booth in order to welcome the anticipated 125 000 visitors.

Located in Hall 3, Stand D001, this booth greater than 230sqm will unveil the concept of "L'Atelier du filtre" literally the filter studio where each visitor will have the opportunity to express his artistic talents.

You are warmly invited to join us for this new experience, discover the news from Sogefi Aftermarket and... leave your trace!
